PREFACE

The 1988/89 Court Statistics Annual Report contains general information on the activities of the Supreme, District, Surrogate and Provincial Courts and the Sheriff's offices on a three year comparative basis. Some charts are included to provide a graphic view of the caseload at each court level, with tables showing the inflow and outflow of cases through the courts.

Some changes have been implemented in this report from last year's publication.

The table on Supreme Court - Criminal Cases has been expanded to show persons committed to trial, dealt with and outstanding at the end of the period.

The tables on criminal matters at the District Court level have been expanded to include data on the number of persons, charges, and indictments flowing through this level of court. The data reflects only matters under the Criminal Code of Canada as we do not have complete data on matters under other Federal statutes at this level of court.

A major revision concerns civil matters passing through the Supreme and District Courts. In April, 1988, a new statistical form was implemented in the Local Registrars office. Certain matters in the Supreme and District courts have been combined. For example, information on proceedings commenced is not separated between the Supreme Court and the District Court. All information on motions is combined. Data on assessments and examinations for

discovery are combined. The data on the trial list activity are still separated by level of court. Some new information includes data on status hearings and on pre-trials. Due to the implementation of the new form, some of the tables provide data for 1988/89 only.

The court offices gather a great deal of detailed information, which because of volume, cannot possibly be included in this type of report. However, upon request to the Statistical Services Unit, data will be provided.
